About SPJIMR

S. P. Jain Institute of Management and Research (SPJIMR), established in 1981 in Mumbai, is a leading postgraduate management institute, recognised by Financial Times Global Rankings as India's #1 business school, by Business Today as one of the country's top five business schools, and by the Positive Impact Rating, a Swiss association, as one of the top five business schools worldwide in terms of social impact.

SPJIMR launched FPM in 2016 and benchmarked its Fellow Programme in Management (FPM) with the best global research programmes.

Fellow Programme in Management (FPM)

The Fellow Programme in Management (FPM), approved by AICTE, is a doctoral-level programme of SPJIMR designed to create world-class researchers and high-calibre faculty in various management disciplines. It encourages rigorous interdisciplinary research in contemporary areas of management. It focuses on relevant and contextual research to address current business issues and aims to create knowledge that helps shape the world for a better future.

The programme's rigorous curriculum provides ample training for an academic career and allows participants to make a mark in the research area of their interest. It develops independent, top-quality management thinkers, thought leaders and consultants. The programme offers an opportunity to individuals with a passion for learning to hone their research talent and to working professionals from the corporate world to deepen their understanding of research methods and apply them to address the challenges of today's dynamic business environment. The programme can be pursued in full-time and part-time mode depending on the flexibility and requirements of the candidate.

Programme Objective

FPM aims to develop world-class academic researchers and thought leaders to conduct industry-relevant research that addresses real-world issues. The programme trains prospective scholars and helps them to become innovative and skilled researchers and prepares them to teach in various fields of management. The programme is aligned with the following competency goals (CGs)

- Capable of creating original research questions relevant to business and society
- Capable of crafting research using appropriate research methodology
- Capable of disseminating knowledge through research and teaching

SPJIMR's FPM programme brings together a unique mix of rigorous methods and practice orientation to research some of the pressing business challenges.

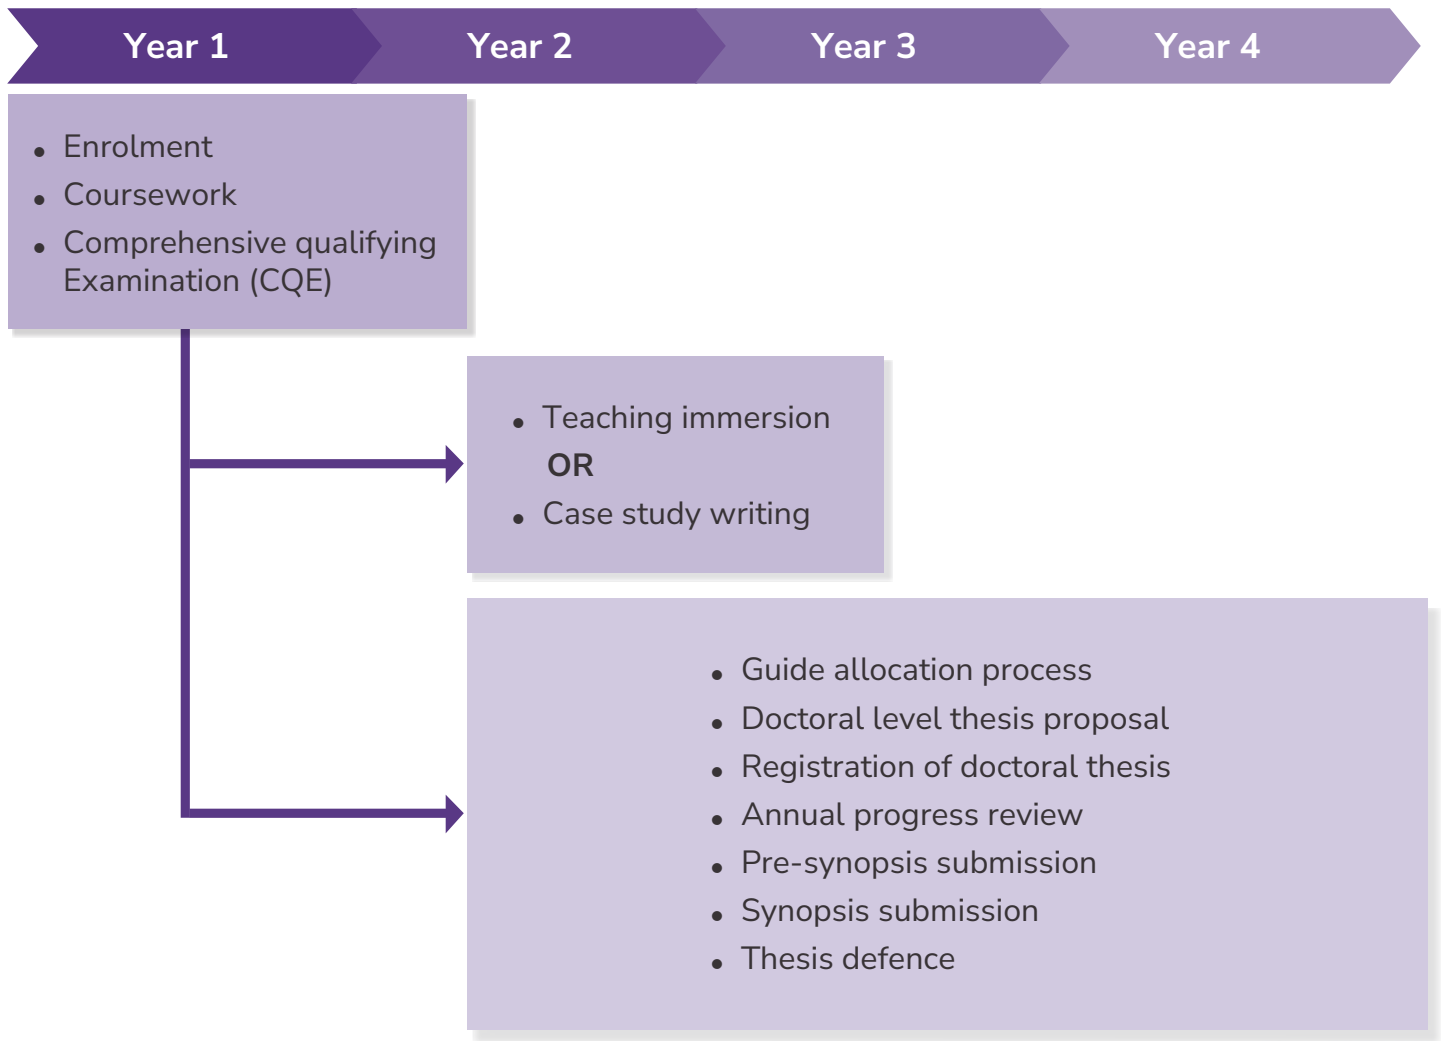

Areas of Research

FPM curriculum is designed in collaboration with experts from leading international business schools with a high focus on contemporary methods and enhancing domain knowledge. The programme's rigorous curriculum provides ample training for an academic career and enables participants to make exemplary intellectual contributions in their respective field of research.

Programme Architecture
