ABOUT SPJIMR

Bharatiya Vidya Bhavan's S.P.Jain Institute of Management & Research (SPJIMR) was inaugurated in 1981 by the then British Prime Minister, the Late Hon. Margaret Thatcher. SPJIMR has been consistently ranked among top 5 management institutions in India.

Our philosophy captures the art and science of getting things done through people and resources.

SPJIMR's mission through pedagogic innovation helps develop pioneering programmes that expand the horizons of management education through globalization and international collaboration to adapt best practices.

SPJIMR has upheld social relevance in business decisions by providing a synthesis of competition based western efficiency and collaboration-centric eastern ethos.

WHY SPJIMR'S GMP?

Initially funded by the European Commission in 2009, SPJIMR's GMP (Global Management Programme), is a unique programme. It partners with some of the world's leading business schools in Europe and US. The partner schools in the US offer STEM designated programs including 3 years of Optional Practical Training (OPT) on completion of the degree.

A mix of global curriculum and faculty, classroom and non-classroom sessions, and simulations provide a diverse learning experience. After successfully completing GMP for 6 months at SPJIMR, the credits earned from GMP are accepted by the partner schools. Students

continue with the next semesters at their chosen school.

SPJIMR's GMP provides exposure to general management courses, with a focus on electives to prepare participants for the specializations at partner schools. The programme offers knowledge in global management, cross-cultural communications, negotiations and international business leadership & strategy, in a truly global environment.

On completion, the final degree is awarded by the partner school in addition to the GMP certification. GMP's US partners offer top ranked programs to enable easy access to global internships and placement opportunities.
