SANJUKTA BAROOAH
(GMP 2016)
WINNER - 2020

ALUMNI SPEAK

“

The decision to choose GMP was the best decision I ever made and this decision made the real me! At IESEG, I met students from more than 30 different countries. I was living in a house with 8 different nationalities, this experience was a real global experience and today I have close friends from every continent on this planet with whom I share many beautiful memories! The journey was hard but the learning, experience and result was totally worth it, if you're someone who doesn't give up and keeps trying, GMP is the place for you.

Pratik Renuse

“

The curriculum and the unique pedagogy deployed by SPJIMR GMP really helped in honing my skills and widen my purview. Apart from academics the semester in Paris helped me in assimilating values, culture which widened my ambit and should really help me stand out as a world class corporate citizen.

Nikita Sucklecha

“

I saw the course as a journey that no other institute would offer me. There is apprehension about finding jobs in Europe but the fact remains that it gives you a platform to explore possibilities outside India.

Naveen Prasad

“

GMP has come as a life changer. A lot of learning at SP Jain Institute of Management and Research was followed by international exposure at IESEG, Paris. I am fortunate enough to be awarded the prestigious Charpak scholarship from the French government which has helped me to work towards my passion which is entrepreneurship. I have a simple philosophy of chasing my dreams and this course provided me the right direction.

Rahul Malhotra

“

5 years ago while counting last days in india before taking flight to Paris i made a promise to myself "One day i will head the brands i use". I still have a long way to go but atleast currently i am deciding the prices for one of my favorite brands. This journey from GMP@SPJIMR to IESEG, Paris and further has been a solid catalyst in my professional and personal growth. Life is of course about the chances you get but it is more about the chances you take.

Priyanka Yadav

“Take-off on an **international career** with 6 months at SPJIMR’S GMP”
