# ALUMNI SPEAK

“

GMP has been a medium for me to reach my career goals faster overcoming all the limits. The journey has not been easy but with a combination of global exposure, excellent faculty, appropriate pedagogical formulas and the right mindset it has unleashed that spirit of how to win alive in this hyper-competitive market.

**Avana Maity**

“

In the words of Bobby Unser, "Success is where preparation and opportunity meet". Well, that is what the SPJIMR'S GMP programme (then PGCIM) turned out to be for me. It was the right platform with a wonderful opportunity to make an international career.

There is still a dearth of talent in Europe and for someone who is willing to go that extra mile, there are a lot of opportunities.

**Gaurav Madan**

“

I decided to join GMP for global exposure. Sometimes you have to choose the road less travelled - eventually it makes one a better person, personally and professionally. GMP helped me carve a niche in my career. I am now part of a global work force, focusing on a topic close to my heart - sustainability. My advice to prospective aspirants is to take a leap forward, think and act unconventionally and try uncharted territories - be young, curious and bold.

**Nishant Parekh**

“

Brandeis is considered as one of the most esteemed business schools in the US. Graduating from a programme in collaboration with SPJIMR made it all the more special. The MBA in Strategy and Innovation is a program that fits my professional aspirations. Hence, I am keen to use it as a pedestal to a world of opportunities.

**Rati Thakur**

“

I can truly relate to this quote from John Dewey when I think about the GMP programme. He said 'Education is not preparation for life; education is life itself'. This programme has been a transformational journey for me both professionally and personally. The combination of academic excellence and international exposure provided me with the apt launch pad into the global business arena. Today, I feel proud to be part of this International network and would like to thank the team behind this programme for their exceptional contributions.

**Samriddhi Sharma**

“

Good managers need new perspectives... And that is exactly what GMP gives you. Living abroad gives your thinking a whole new dimension. You realise the vast differences in cultures, business strategies and risk appetites. Having lived in India, France and now Germany, I can now understand how strategy evolves with evolving markets and socio-economic characteristics of a country.

**Parixit Naik**

“Take-off on an **international career** with 6 months at SPJIMR’S GMP”

## **MUMBAI CAMPUS**
