# About **SPJIMR**

Since its inception in 1981, SPJIMR's mission has remained to 'influence practice and promote value-based growth' of students, alumni, organisations, their leaders, and society at large. The world today is dynamic but imperfect. To create a better world, leaders and organisations will need to innovate and scale, wisely with humility, inclusivity and socio-environmental sensitivity.

SPJIMR aims to do this by advancing wise innovation at scale through its teaching, thought leadership, industry & community engagement, shaping the innovation practices of thousands of participants across programmes, along with our corporate and NGO partners who rely on us for talent acquisition.

We also influence a select number of high leverage entrepreneurial communities or ecosystems through our centres of practice.

A constituent of Bharatiya Vidya Bhavan, India's visionary educational trust established in 1938, SPJIMR offers a broad portfolio of management programmes to individual participants and organisations. SPJIMR is an AICTE-approved Tier 1 MBA institute accredited by The Association to Advance Collegiate Schools of Business (AACSB International) and the Association of MBAs (AMBA), UK.

SPJIMR has launched the two-year Post Graduate Diploma in Management (Online). The programme is curated for working professionals, who wish to pursue formal management education without leaving their jobs and home locations. The programme equips participants with an integrated approach to functional management and related problem solving tools.

# Programme Highlights

- ▶ The programme curriculum offers **contemporary courses** in functional management
- ▶ Learn from SPJIMR's faculty who come with extensive industry experience and are **Thought-Leaders** in their area of expertise

# Teaching Pedagogy

The teaching pedagogy will be live sessions by the SPJIMR faculty along with the support from the EdTech Partner – Coursera.

The students will be provided with pre-recorded videos explaining the basics, interactive sessions with the faculty. They would have continuous evaluations through quizzes, assignments and end-term exams.

PGDM Online will help students develop an overview of all functional areas in a holistic manner giving them the unique flexibility to choose a preferred mix of courses depending on their career goals, in the second year. The course architecture will help participants excel in business decision-making that has an impact spanning multiple departments. They would receive cutting-edge management education along with horizon-expanding experiences that will accelerate their growth as innovative leaders.

Apart from state-of-the-art design of the curriculum, the participants will work on Projects, experience interacting with NGOs as part of Development of Corporate Citizenship

(DoCC), participate in Science of Spirituality (SoS) exercises in their journey towards self-mastery. In addition, participants will attend the Personal Growth Lab (PG Lab).

The course pedagogy includes live sessions by SPJIMR core faculty and visiting faculty, videos explaining basic concepts, which can be viewed at your convenience, before the scheduled class, case analysis and discussions, simulations, tutorials and peer learning through group work sessions.

The programme offers opportunities for systematic peer learning through flexible interactive sessions. The live sessions are scheduled on Sundays and weekday evenings. On Sundays, the programme offers opportunities for systematic peer learning through group work, followed by two sessions in the afternoon. You will be working in groups in a monitored platform provided by the institute and groups are allowed to shift the timings of these interactions to any slot convenient to members increasing flexibility of the programme.

# Programme Structure

The two-year PGDM Online programme is approved by the AICTE. This programme is on similar lines of programme offered on-campus.

The programme gives an opportunity to working professions who would like to avail of the opportunity of post graduate education from a premier Business School, without taking a break in their career or changing their location.

The programme is an immersive experience with learning hours spread across two years.
