GCPE Batch 02 is scheduled to commence on December 17, 2023 (Sunday). Experiential learning is the teaching pedagogy used in this GCPE program, which is designed to help young minds launch their entrepreneurship goals. It will provide participants with the necessary skills and knowledge to develop innovative solutions to real-world challenges with mentorship from SPJIMR mentors.

Participants are instilled with an entrepreneurial mindset as a result of the program's focus on development, and government poverty alleviation departments. The program is conducted over one month (Hybrid Mode) during weekends on Saturday evenings and Sunday mornings without disturbing the undergraduate academic timetable.

Admissions are open for the 23rd batch of the Post Graduate Program in Management (PGPDM) with SPJIMR. The AICTE-approved two-year program will enable busy professionals to advance their careers in the dynamic business world and make a positive impact on society. This recognition by FT is a testament to the collective efforts of our faculty, staff, and students.

SPJIMR is one of only two Indian institutions in the top 50 globally. SPJIMR secured its SPJIMR mentors are also there to support them. Our Masterminds are curious to make a video.

The Changemakers developed “Saathi”, a smart stick for the visually impaired, that can identify pits and obstacles from a distance. Pramod, Shreyas, and Vaibhavi (PGPM, Class of 2012) for raising $500k in an angel funding round for Microrna and are working on a working prototype of their gadget. They have two IIT Mumbai mentors for this. Alok Bansal, a working prototype of their gadget. They have two IIT Mumbai mentors for this. Alok Bansal
